

I benefit from listening to XM Satellite Radio and its traffic and weather channels. Satellite radio provides variety and quality that is not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I respectfully urge the FCC to reject the NAB's petition 04-160 and support XM's ability to provide the kind of programming that I demand and deserve. God, have you listened to old fashioned AM and FM Radio lately? It is nothing but garbage and I thank god that XM radio is now available. There is a lot of good music and entertainment not available because of these people.

Don't let it happen.
